Towards better cancer services in Great Yarmouth and Waveney

Who are we?

We are a group of ordinary people whose lives have been touched by cancer and are committed to improving cancer services in Great Yarmouth and Waveney. TAC is part of the East of England Strategic Clinical Network for Cancer.

What do we do?

We:

- consult with and listen to people whose lives have been affected by cancer
- work on behalf of patients and carers to improve services
- gather and report on experiences of NHS cancer service patients in Great Yarmouth and Waveney
- represent patients and carers on East of England Strategic Clinical Network for Cancer
- advise healthcare staff and commissioners to help improve local services
- bring the experiences of anyone affected by cancer to the attention of those who fund, plan and manage services in the area
- listen to patient’s feelings and emotions whilst they are on the cancer treatment pathways.

Why get involved?

- join us to help the authorities to develop the world class cancer services in Great Yarmouth and Waveney
- join us to help cancer patients in their journey
- join us to influence cancer planning and delivery of the services, thus improving the lives of the cancer patients and their carers.

A first step – towards a better service

Activities include:

- consultation with people affected by cancer
- ensuring the patient’s voice is heard
- keeping up to date with cancer care developments
- meeting regularly to share experiences.
